HI-TOWER FLASHES

SEPTEMBER 19, 1980 LINCOLN HIGH SCHOOL, MANITOWOC, WI 54220 Vol. 52 No. 1

'Shot' law now in effect

Remember the time when your palms were sweating, your hands shaking, and your heart beating wildly? No, it was not a date with the captain of the football team or a cheerleader but a date with your local school clinic for a shot in the... arm with a gun, needle. If you were lucky maybe you got to suck on a sugar cube. Well, these feelings may soon be coming back to some of us due to the immunization law which went into effect July 1 and affects students from kindergarten through high school.

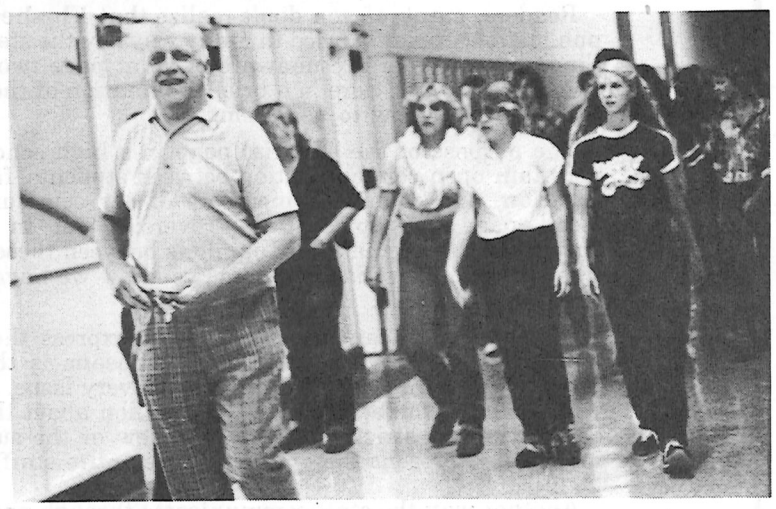
Georgia Kohlwey, of the County Nurse's Office, says this is partly due to minor measles outbreak in the spring of '79. Thus, it has become necessary for parents to protect their children from any contagious disease resulting in another outbreak. This law was proposed last year but was rejected by Congress. Wisconsin is now one of the many states stressing immunizations among school-age children.

Reasons one can refuse the shots are religious, personal, or health problems such as convulsions due to high fevers, chronic illnesses, or allergic reactions to the egg base used in the measles shot. This is the only required innoculation among 10-12 grade students, but the others are recommended.

Immunizations are offered free of charge by phoning for an appointment at the Public Health Nursing Service, division of the City Health Department, within the hours of 8-12 a.m. and 1-5 p.m. You can also contact the County Nurses Office from 8:30-4:30 p.m. The city office, located at 817 Franklin St. administers shots on weekdays while the county office, located at 4202 Calumet Ave., gives shots on the first and third Tuesdays of every month. County Nurse Kohlwey says that the immunizations are, "The best insurance a parent can get for a child."

Should parents be uncertain as to the exact dates of their children's innoculations they can check with their doctor or call one of the nurse's offices, 682-0358 for county or 684-3331 for the city. Not responding within 30 days may result in a penalty of no more than $25 per day for each day the child goes untreated.

In case of an outbreak of any vaccine-preventable disease, students who aren't completely immunized against it will be excused from school. Any person who received some of the vaccines, should list them on the form sent home so that he can receive the proper treatment handling in case of an epidemic. Statistics as to the results of the immunization program will be made public some time next fall.



Mr. Richard Frailing showed some sophomores where his homeroom is on orientation day, Aug. 28. On this day sophomores entered the auditorium filled with anticipation. They were greeted by speeches from various faculty members of which Mr. Zoch seemed to generate the most interest by joking around with them in the beginning of his speech. After the speeches the sophomores left the auditorium and went to their homerooms. Their homeroom teachers then explained things about LHS and handed out folders. After this they were all let out to go and explore their new school.

College board exam dates announced

by Pam Heinzen

Seniors who are thinking of going on to school after graduation can now obtain information concerning the ACT (American College Test) and SAT (Scholastic Aptitude Test) from Mr. Lindley DeNamur, head of college testing and application in the guidance department.

In order to take the ACT, the student must get the registration packet from DeNamur before today's deadline for the first 1980-81 national test date which is October 18. All ACT tests are given in Manitowoc and cost $8.50. It will take students about three hours to complete the four exams (English, math, social studies, and natural sciences) that make up the ACT.

The SAT will be administered in Manitowoc only Dec. 6, so registration materials must be completed by Oct. 31 for that date. Other test and registration dates for both tests are posted in the guidance office. The SAT fee is $9.25 and covers verbal and math skills, an all-morning test. Students should check with their counselors as to what college requires which of the two tests and if an achievement test should be taken. Some students who are in the upper half of their class may not need the tests at all. Short-term drill and cramming are likely to have little effect. To help students become familiar with the test, the explanations and full sample test in the envelope, "Taking the SAT," is given when students register.

The PSAT will be given Tuesday, Oct. 21, to any juniors who may be interested in going on to college. This is only a preliminary test, designed to give students a rough idea on how college exams are set up and what subjects are stressed.

New guidance assignments announced

The guidance department has become more specialized this year whereby a certain counselor supplies specified information. Mr. Harold Carlson handles information concerning the WCIS (Wisconsin Career Information System), a questionnaire on career interests which is put through a computer supplying results as to what jobs you'd qualify for. Mr Lindley DeNamur handles questions dealing with the ACT and SAT, Mr. Brian Shaw, scholarships, and Miss Carla Von Haden, financial aid information with such forms as the Basic Educational Opportunity Grant and the Financial Aid Form.

Book thefts hurt students

Stealing is a serious problem at the LHS library. Students have stolen books at a rate of 800 per year. At approximately $2 per paperback, $5 per hardback, and $20 per reference book, this is very expensive for the taxpayer. The books that are being taken are the best hardback and paperback nonfiction books, and a few reference books.

There have been attempts to solve this problem, such as limiting the number of people in the library, closing the stacks in the back, getting a Zerox machine, and liberalizing book renewal rules, but none have been successful.

The librarians have looked into a book theft detection system that could be put in the door and would buzz when a book went through that wasn't checked out. Despite their appeals, the Board of Education said they couldn't have it.

The librarians might begin checking at the door. If they did do this, however, someone would have to be hired to stand at the door and check every book carried by every person who walks out the door. So don't be surprised if you're walking out of the library one day and someone stops you and wants to check your books.

Flambeau to change; Manitou to be added

by Jim Franzen

It looks like a tough year for LHS **Flambeau** and some major changes are being considered to get the book finished on deadline.

Some things have already been decided such as changing the size of the book. **Flambeau** which has been 9 x 12 inches since 1965 will be returning to its former size of 8½ x 11 inches. "This was forced upon us by cost," says **Flambeau** Advisor James Hinstorff. "We would have had to spend $2000 just to stay 9 x 12 inches this year.

Flambeau was one of the few remaining 9 x 12 inch books in the state and by switching to the 8½ x 11 format many more options, such as fancy covers and division pages, will be available for use.

Another change that will save some money this year will be the combination of **Flambeau** and **Manitou.**

Manitou, which cost over 900 dollars to produce last year, will be given a section inside **Flambeau.** This will also help **Flambeau** meet its deadline because **Manitou** staff will be able to help out with some of the workload.

Flambeau's small staff will also mean a cut of the number of pages in this year's book. The yearbook portion of the book will be scaled down to about 150 pages from last year's 192.

Seniors are also reminded that senior pictures are needed in the Tower before Nov. 3, which is also the last day you will be able to purchase a publications card.

Anyone who has sixth hour off and is interested in helping our **Flambeau** should stop up in the tower and talk to the publications advisor Mr. James Hinstorff. With your help, **Flambeau** will be finished on time.

News In Brief

The total population at LHS this year is 1774. This is down from the 1812 students of last year. This year there are 631 sophomores, 565 juniors, and the graduating class contains 578 students.

* * * * * *

This is Lincoln's 57th year in the education business.

* * * * * *

There is only 37 weeks left of school.

* * * * * *

Next issue of **Flashes** is Oct. 3.

Editorial

Flashes reflects views of LHS community

Readers, many of you don't realize that **Flashes** is a Student publication. It can be used in many ways by the staff and by you. Since most of you are unaware of what page two, the editorial page, is all about, here is a brief explanation of the things you'll find here, and how to use them.

The purpose of the editorial page in a high school paper is to maintain open communication between students, faculty, administration, and concerned members of our community. The editorial page puts present controversies out in the open to encourage the circulation of opinions between these groups. Once this interchange of ideas occurs, we know we have succeeded in reaching our goals.

Staff members can use this page to express their views in a number of ways. The most common means is the **Flashlites** column which can be found in nearly every issue. Here, an individual staff member can voice his opinion about the issue of his choice. This is strictly the writer's view of the subject and not intended to present the opinion of the entire staff.

Another way the staff communicates through page two is with unsigned editorials which reflect the general opinion of the whole staff rather than a single member.

But, readers, don't sit back and let the staff do all the talking! You can use the editorial page too! The **Flashes Forum** column is one handy means of expressing your opinion.

Students don't have direct control over this viewfinder column, but **Flashes** will do its best to show both sides of the controversy presented.

Another form of editorial writing that you, the reader, can use is the **Letters to the Editor** column. **Flashes** always welcomes letters to the editor. Tell us what you like and don't like about our paper. Maybe you disagree with a new school rule or policy. Give us your opinion about it. Or perhaps you'd just like to speak up about a new law, a community program, or some social issues. Whatever it is you'd like to say, we'd like to hear it.

Flashes will be glad to print your letter providing it meets the following requirements: it must first be relevant to Lincoln and its students. It can be no more than 250 words in length, and it must be signed. Names will, however, be withheld upon request. Keep in mind that your letters are subject to the laws of libel, defamation, obscenity, incitement, and copyright. Also, **Flashes** reserves the right to correct grammatical errors and to shorten statements which are repetitious or that don't fit in the allotted space.

Interested in sending us a letter? Letters to the Editor can be mailed to Lincoln High School, 1433 S. 8th Street, Manitowoc, WI 54220. You can also drop letters in Mr. Hinstorff's mailbox in the office or bring them up to the Tower yourself during seventh hour. Remember, we want to know what you're thinking and do welcome your letters.

So there you have it folks! Now you know all about the editorial page and how it works. **Flashes** urges you to use it.

Future depends on today's decisions

"I don't feel like going to science today. Why don't we go downtown?"

If this question sounds familiar to you, you have some very important things to think over. If you follow the pattern that most "skippers" do, your future looks pretty dark.

It starts with a nice day, an unpopular class, and a "friend" with a better sounding idea than your next class could ever offer. Your friend approaches you with a line like, "It's a beautiful day. How would you like to go down to the beach with me?" You decide your next class is no contest to a cool walk on the beach, so you go.

Each time you skip a class it becomes easier. Soon enough you're "addicted" to skipping out, and it becomes a daily habit.

You begin to fall way behind and finally, your teacher kicks you out of the class — if you don't drop out before he gets the chance. You now realize you don't have enough credits to graduate.

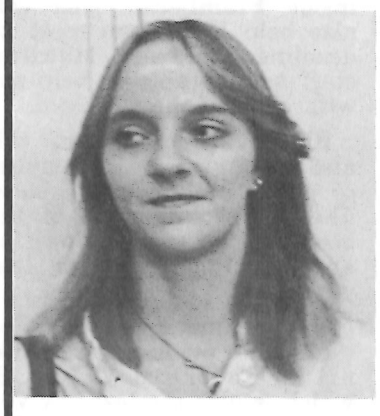
"So what?" you may say. But there's a life after graduation you have to think about. You'll have a tough time finding a job. Dad may be dishing out the bucks now, but he won't be around forever. If by chance you decide to get married, your survival chances are further decreased; you have a family to think about too.

Now let's look at a simple means of avoiding this situation. To start, you make yourself go for just one more hour and save the beach for lunch or after school. You do the work you have to do; teachers ask a lot for an "A," but it's no sweat if you're only working to "pass." When graduation rolls around, you've passed your classes, earned your credits, and won't have half as hard a time getting a job with your new diploma. This sounds much better than the first situation, don't you agree?

Whatever your choice of futures, remember, you're deciding **now** what you'll be doing 10 years from today. Maybe that one extra hour isn't so unbearable after all.

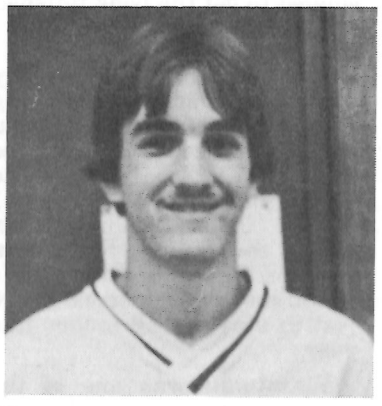
Flashes Forum

What do you think of Lincoln's new attendance policy?



Becky Osieczanek, Junior

I think it's stupid because some people's parents may be working until after 2 or 3 p.m. and maybe won't be able to call on time.

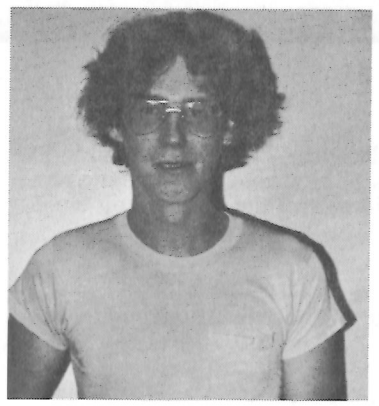


Jeff Nickels, Senior

The change is for the good of the school. There were too many dropouts in the last few years. It should cut down on that and it will definitely cut down on kids cutting classes.

Ms. Kathy Orth, Librarian

Previously we have had a tremendous attendance problem so, hopefully, this will help. It's certainly worth trying.



Keith Wilhelm, Senior

The policy change is worthless. The system already exists to get past it. Now instead of skipping out an hour, students skip out of a day.

Wanda Wittmus, Junior

I think it's good because it will eliminate skipping out.

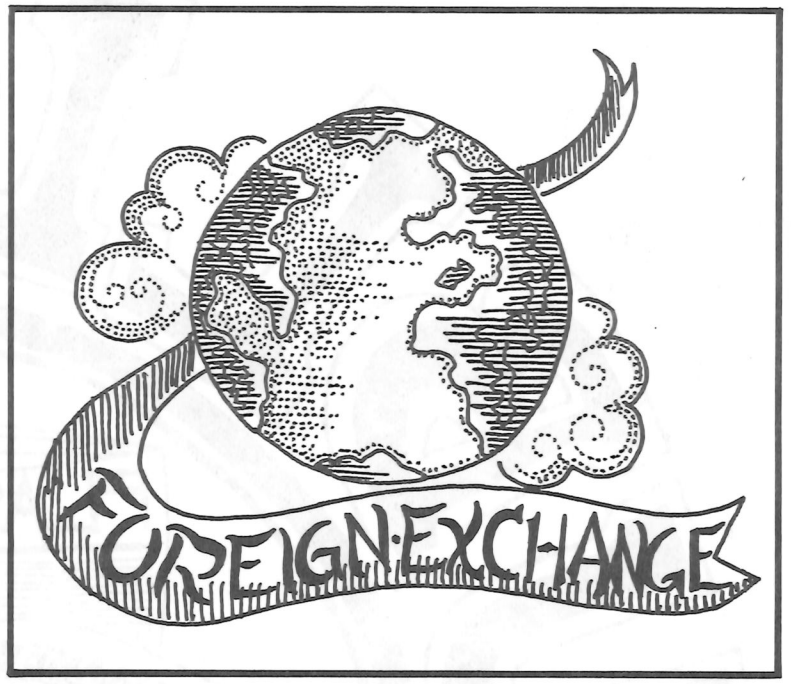
Five exchange students to study at LHS

This year Lincoln has five students visiting from other countries. They are Rohan Lal Seneviratne, Sri Lanka; Gabriele Auinger, Austria; Ana Alvarez, Costa Rica; Matti Vartia, Finland, and May-Britt Bertlin from Sweden.



Rohan Lal Seneviratne

Rohan Lal Seneviratne is from Sri Lanka, formerly known as Ceylon. He is staying with his hosts, the Rankin family. Rohan's interests are basketball, soccer, and reading novels. He also said that he finds our school to be easier than in Sri Lanka and instead of wearing what you want, Rohans' school has a dress code of white pants and shirts.

Gabriele Auinger

Gabriele Auinger's hosts are the Norkosky family. Gabriele enjoys swimming and skiing. She also said that school is easier here than in Austria. She had nine years of English before coming here which was a great help. She says she dislikes fast food places.

Ana Alvarez

Ana Alvarez's hosts are the Schrankler family. She has a host sister, Anne Schrankler. Ana says she enjoys the scenery in Wisconsin. She likes the lakes mainly because of her interests which are water-skiing, canoeing, and ice skating. Ana says that a lot of American music is on the radio in Costa Rica. Also many of the fast food places here are there, too.

Matti Vartia

Matti Vartia's hosts are the Kadow family. He has a host brother, Craig Kadow. Matti spends a lot of time playing table tennis and says that it is very popular in Finland. He also had nine years of English before he came here and says that school is easier here.

May-Britt Bertlin

May-Britt Bertlin, the only exchange student not with AFS, is with the Scandinavian Student Exchange Program. Her hosts are the Morgan family. She says Manitowoc reminds her a lot of home except it doesn't have as many hills. May-Britt said Sweden has some of the same T.V. shows as we do except their programs are captioned. She also agreed that our school is easier than hers.

Dear Students of Lincoln:

Zales Jewelers at Edgewater Plaza is offering all of you the opportunity to order your personalized class rings.

You'll have a **CHOICE** in selecting from a traditional style ring that offers up to 43 choices of activities with your name deep sculptured on the side, to our wide variety of fashion rings, up to 15 girls styles and 3 boys, all in either 10K white gold or 10K yellow gold, or a man-made metal. What's more, allow **only** six weeks delivery.

In addition, the classes of 1981, 82, and 83 can register to **"WIN YOUR OWN WHEELS"** through November 30, 1980. Grand prize is a 1981 Pontiac Trans AM and 510 other great prizes!!

Looking forward to seeing you at,

Zales the Diamond Store
Edgewater Plaza

Sincerely yours,

Ronald Bayer

Julie Puksich

New teachers welcomed

Each year we are privileged to have new teachers added to Lincoln's staff. This year there are two new teachers at LHS.

Mrs. Julie Puksich teaches general business, marketing, salesmanship and personal typing. Puksich is also involved in extra activities such as Pep Club and Cheerleaders. She is married and lives in Sheboygan.

Mrs. Puksich started teaching at a vocational school in Superior, WI, where she was originally from. Puksich studied four years for her degree at the University Wisconsin, Superior.

The other new teacher at Lincoln is Mr. Ronald Bayer. Bayer is substituting for Jim Miller in vocal music. He is also involved in Lincoln Singers and other vocal ensembles. This is Mr. Bayer's first year of teaching in a public school in which he is happy. Bayer studied seven years for his Masters (M.M.U.S.) degree at the University of Illinois even though he is from Racine.

When asked what they thought of Lincoln and its students, both said that they like the school even though it is a little big. They also said that they like the students because they are willing to give the teachers a chance. They said LHS students are honest, well behaved, and willing to help.

Mrs. Puksich said that she doesn't know much about Manitowoc because she lives in Sheboygan, but Mr. Bayer said that it's a nice clean city with friendly people.

Sophomore outlook bleak

So now you have arrived! How does it feel to be part of the Ships' crew? Hopefully everything will work out o.k. For some it might not.

As sophomores you might have trouble finding your classes. While you're walking down the hall, you have to have quick eyes to see the room numbers and where you're going at the same time. Once you spot the room **go for it!** Don't hesitate or you'll be swept away with the herd.

Lunch time can be great. For some students it might be hard to swallow! Want to get some food? Plan on spending time waiting in line for the vending machines. After you collect your food, try finding a place to eat. At this point you begin to understand what frustration really is. After settling down you get to eat a nice relaxing lunch right? **Wrong!** If you don't eat fast you might be late for your next class.

What goes up and down and turns in circles? You guessed it — the staircases. If those big steps look tiring, you guessed right. If you can make it from phy ed to your locker and to a class on the third floor, congratulations! You should be on our track team. Don't worry if you've had trouble with the stairs, eventually your system will adjust and you won't get tired as easily. Now you'll only collapse once a day.

A really big problem that effects many of you is just the fact you are what you are sophomores! If you get picked-on by Jody Junior or Sally Senior take heart. Just remember they were sophomores once, too. You have a whole year to put up with the teasing and then it will be your turn.

'World religions' added

Religion being taught at LHS? That's right, this year a new course titled "world religions" has been added. The course is not based on religion as we know it. It deals with the study of different religious systems. This course is part of the Social Studies department and is taught by Mr. Roger Alexander.

The objectives are to understand the nature of religion as an institution. In the class you learn about the history and nature of the major religions and some of other less significant religious developments. Some of the beliefs they will study are Hinduism, Buddhism, Islam, Judaism, and Christianity. Later they will also be discussing cults and religious world affairs.

Mr. Alexander said of the course, "The new world religions course will be an exciting journey into the uncharted waters of human beliefs. As a result, students will not only add to their own funds of information on other faiths, they should also gain fresh insight into religious values important to them."

Mr. Alexander views his class as a welcome challenge to teach. He feels the challenge for him is present because of the vast area of study.

The present class is small and there is a lot of give-and-take between teacher and student. Mr. Alexander feels that his class will be worthwhile and a meaningful experience.

Gridders try new offense

The Ships' first practice kicked off the 1980 football season Aug. 12. Twelve returning lettermen reported for practice. Three of them were starters last year.

The team is no longer using the wishbone offense. After nine years they've changed to a wing "T" offense. The players still have not gotten used to the new offense, though.

The Ships lost their first game against Kimberly 20-6. Coach Ron Rubick attributes part of the loss to the new offense.

Sept. 12 the Ships faced Oshkosh West at West. The first half of the game was scoreless. "It was a good game" Rubick commented, "Most of the game was played between the 20-yard lines."

In the second game the Ships handled the ball better. Rubick says they still need work on the timing, though.

The first score of the game came in the third quarter. Ship Tim Davey connected on a 13-yard pass to Brian Kiel for a T.D.

Dean Berres made the extra point.

Rubick says Davey did a good job in mixing up the plays.

Oshkosh West scored on the first play of the fourth quarter. The Indians' quarterback faked a reverse leaving their receiver open.

The only other scoring in the game came in the last 41 seconds of the fourth quarter. Berres put a 30-yard field goal attempt through the uprights giving the Ships a 10-7 victory.

Matt Pekarske returned a kick off for 82 yards. Unfortunately, the ball was called back because of a clipping penalty. Pekarske had 40 yards rushing and Craig Doerfler had 31.

Manty had no turnovers. Oshkosh had a total of three. Davey had one interception for 16 yards. Javier Alverez also had an interception for 15 yards. Mark Burbey recovered an Oshkosh fumble.

Manty almost doubled Oshkosh in the air. Adding up yards for the Ships were Chris Bennett, Todd Lemke, Scott Jagemann, and Gary Stoon.

Oshkosh out-rushed the Ships 109 yards to 69.

The Ships' next game, Parents Night, will be played tonight at 7:30 at home.

Looking Ahead

Sept. 19..... Varsity Football vs. Sheboygan North here, 7:30 p.m.

'Y' programs offer variety to public

To many of you the thought of another cold winter and snow means fun on the ski hills, a great time ice skating, and building a snowman in your front yard. Winter is no threat to your fun times because outdoor activities you love most are there for you to enjoy.

However, a great many more of you are indoor folks who would much rather stay in your nice cozy homes "Bah-humbugging" the winter blues away.

This year, rather than sitting home getting fat, why not try out the YMCA? They've got plenty for you to do indoors, away from the dreadful cold.

If you're the type who likes to enjoy summer at the beach, the YMCA has a beautiful pool. There's no sand, but their heated pool is a great place to take a relaxing swim.

Another place to go is the gym. Whether you play basketball for fun or competition, the YMCA has a huge floor with six hoops to practice on.

If you're a tennis player, the YMCA can satisfy you too. They've got three fairly new courts in very good condition. All you've got to do is call in, reserve a court, and it's all yours.

Perhaps racquetball is more your style. Racquetball courts can also be reserved. If by chance you'd like to play, but don't have the equipment needed, you can rent a racquet and ball for just 75 cents.

and ball for just 75 cents.

Maybe sports don't interest you and you'd rather just exercise. The YMCA has a mat room in which you can sprawl out on a flat surface and bend and stretch your muscles till you can't stretch anymore. After warming up, you could go for a run. The YMCA also has a jogging track where you can run as long and far as you please.

For those of you guys who thrive on building up "macho" muscles, there is also a weight room with different types and sizes of weights to keep your bodies in shape.

These are the main activities the YMCA has to offer, but are not even close to all the programs you can become part of. You can join any class you want from photography to taek won do, from ballet to dog obedience classes, and they've probably got the perfect class for you.

A YMCA membership is not free, but the price is fairly good considering the variety of things to do. Just call the YMCA or go down and talk to them. They'd surely like to make you a member of their family.

WE ARE MOVING OUT TO SHOPKO PLAZA OCTOBER 1st!!!

And because of this move, we're having, you guessed it, A **MOVING SALE!!!** Starting today through September 30th, you can come in and find some great buys. We're moving all inventory!!!

Swimmers break records

The LHS girls' swim team plunged into their season last Tuesday against a strong Oshkosh North team. The waves settled with North victorious, 115-57.

Although the team suffered a loss, several school records were broken at the meet by the Ships. These outstanding performances were turned in by Stacie Robinson in the 200-yard IM, Cheryl DeBaker in the 100-yard backstroke, and the 400-yard freestyle relay of Peggy Raduenz, Sally Anderson, Kathy Place and DeBaker.

The team also competed in a dual meet last Thursday. Sheboygan North dominated the competition resulting in a final score of 54-29. Robinson came through and dropped her previous record in the 200-IM by one-tenth of a second. The 400-yard relay team of Raduenz, Anderson, Place, and DeBaker, shattered their record by four seconds.

The girls' team consisting of only 14 people has turned in several impressive times for their first week of competition. The only returning letter winners are Anderson, Jody Daugs, Place, and Raduenz.

The team is under the leadership of Nancy Mueller and Yvonne Monfils. Coach Mueller is entering her first year as a coach, but has had several years' experience as a competitive swimmer. Coach Monfils has previously coached Green Bay Preble and presently works for the Manitowoc Rec. Department.

The Ships will be swimming Monday against Plymouth at 7 p.m.

SCOREBOARD

Boys' Cross Country

Brookfield	2nd
Green Bay Preble	1st
Shawano	1st

Green Bay West	7-0
Green Bay East	1-6

Volleyball

Sheboygan North	15-6
Chilton	15-12
Sheboygan South	15-11

Wrestlers return from Germany

Two Lincoln wrestlers returned from Germany with winning records and plenty of experience.

Pat Gauthier and Dave Meister came back July 1. Gauthier tallied a total of nine wins, three losses and plenty of memories. Meister stacked up ten wins and four losses. Three of his losses were to a wrestler on the Bavarian Olympic Wrestling Team.

Both Pat and Dave would like to return and see their host families again.

Gauthier said, "When I left they said if I ever came back to Germany I have a place to stay."

While wrestling Gauthier and Meister both agree they had a slight advantage. European wrestlers use more Grecoo style (or upper body) U.S. wrestlers use a lot more leg in their moves.

Both boys will be wrestling this year. Pat will be wrestling for Lincoln. Dave is attending the U.W. Madison.

TIME OUT

by Dawn Markham

Hey fans, what's wrong? Where is everyone? The first LHS football fan bus was cancelled and so was the second one. Why, you may ask? Is it due to the lack of fans? It seems that a school with 1774 students could at least fill up one bus...if not more.

Now c'mon, fans, those players put a lot of hard work and effort into their sport and they'd even do better if they had their fans out there cheering for them.

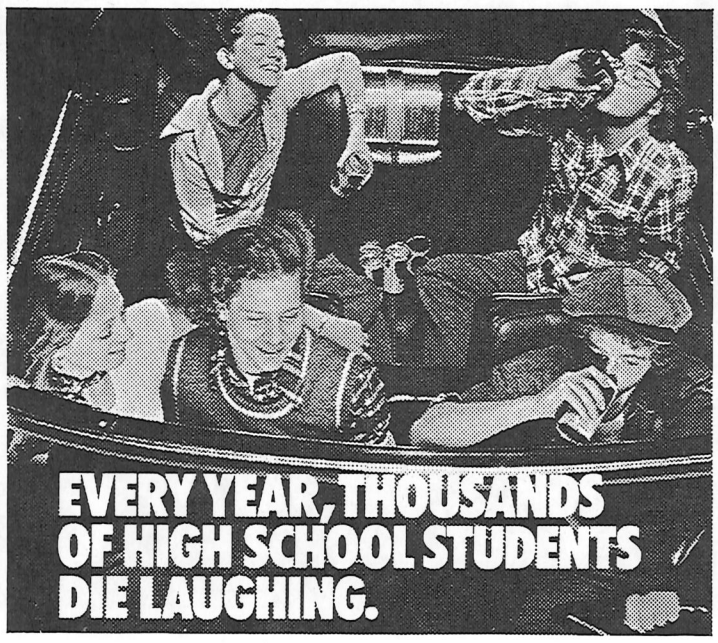
You can't expect the players to do their best when they know that nobody cares enough to go to their games.

Probably half of Lincoln's students don't know if the football team won or lost.

The fact is they lost to Kimberly 20-6. Maybe the score would have been more favorable if there had been fans there cheering them on.

We're not just talking about football. All the other sports, like tennis, cross country, volleyball, and swimming need your support, too.

There must be something you could do about it. Don't you agree?



They die drunk. In a car with their friends. They're driving along when someone opens a bottle of wine or hands out cans of beer. And it seems like fun because they're friends.

And soon they're joking and singing, enjoying their laughter, enjoying each other.

But something's wrong. The car is too fast and reflexes are too slow. And it's too late to avoid that tree. No time to swerve away from that oncoming car.

And so they die. Even though they thought they were only having a little fun.

The fact is drunk-driving accidents kill more people your age than anything else.

Think about who's been drinking and who's going to drive. You have to start taking care of each other.

That's what friends are for.
